

Dear Colleague,

Please find below information about Advanced short Training Courses in Structural Analysis of Existing Buildings, Monuments and Historical Constructions.

I kindly invite you to disseminate this information to anybody who could be interested in applying.

## **ADVANCED SHORT TRAINING COURSES IN STRUCTURAL ANALYSIS OF EXISTING BUILDINGS, MONUMENTS AND HISTORICAL CONSTRUCTIONS**

The courses integrated in the SAHC Master Course ([www.msc-sahc.org](http://www.msc-sahc.org)) can now be attended separately, without the need to enroll in the Master Course.

These courses are of interest to those interested in the conservation, repair and strengthening of the built heritage, be it monuments, other cultural heritage buildings or existing buildings in general. This includes mainly civil engineers and architects, but also, for some courses, art historians, archaeologists and other interested in cultural heritage buildings, interested in complementing or updating their knowledge with the most recent professional and scientific approaches and techniques.

The attendants can be professionals such as consultants, employees in building contractors, building material producers and suppliers, heritage authorities and others, as well as graduate students (MSc or PhD) enrolled in other programs.

Detailed information can be found in the leaflet (downloadable at [www.msc-sahc.org/upload/docs/Advanced\\_Training\\_Courses\\_SAHC.pdf](http://www.msc-sahc.org/upload/docs/Advanced_Training_Courses_SAHC.pdf)) or by visiting the webpage at [www.msc-sahc.org](http://www.msc-sahc.org).

For further information, please contact the Secretariat at [secretariat@msc-sahc.org](mailto:secretariat@msc-sahc.org).
